Clinical Training Webinar Series
Developmental Trauma Disorder: Identifying Critical Moments and Healing Complex Trauma

Series Overview

Provides clinicians, counselors, and other helpers with insights on recognizing and dealing with the most difficult crises and turning points that occur in therapy with traumatized children and families. Each webinar features a scene where the youth and caregiver are actors playing fictional characters, but the therapists are real. Viewers will see how therapists handle critical turning points during the therapy session to help families safely heal from the severe emotional and interpersonal problems that occur in the aftermath of complex trauma: Developmental Trauma Disorder.
